The Trust must hold personal information about children who attend college on its Student Management Information System and in paper records in order to ensure students' educational and physical well-being needs are met. The Principal is responsible for the accuracy and safekeeping of these records. Parents, guardians and carers of children attending college are required to inform the College of any change in details or circumstances as and when they happen. To ensure confidentiality and privacy, college staff will not disclose information over the telephone about a student unless completely satisfied that they are talking to the parent, guardian or carer of the student. Information will not be disclosed to family or friends of students unless with prior written consent from the registered parents, guardians or carers and messages concerning students will not be left with others. Parents, guardians and carers have a right to see their child's record and the information the College holds for them. Please contact the Principal if you would like further details.

**SECTION 2 HEALTH AND HYGIENE**

In Hillingdon, there are well established procedures for keeping a check upon various aspects of each child's health and hygiene. From time to time, routine health checks involving vision, height, weight etc. may be carried out together with dental inspections. Periodic hearing tests are also carried out and, when necessary, inspections for head infestation made. Parents, guardians and carers who do not wish for their child to take part and would like to opt out of any of the above routine checks must notify the College in writing. If an opt out notice has not been received from the child's parent, guardian or carer, it will be considered that you agree to your child undergoing the routine health checks organised on behalf of The Trust. If any of these routine procedures indicate that treatment or further action is necessary, you will of course be contacted immediately before any treatment is given.

**AS THE PARENT/GUARDIAN/CARER:**

- ☆ *I have read and understood the above policy guidelines and agree to the procedure being followed.*
- ☆ *I understand that I will be notified immediately if any follow-up action is necessary following such a check.*

## SECTION 3

## ASTHMA

The Trust recognises that asthma is a condition which affects many children and positively welcomes all students with asthma. Accordingly, The Trust seeks to:

- ☆ Enable all students with asthma to participate fully in all college activities;
- ☆ Ensure all members of staff are able to deal with a child who has an asthma attack;
- ☆ Ensure all students with asthma have an inhaler with them at all times and that a spare is kept in the Reception area.
- ☆ **PREVENTATIVE INHALERS:** No preventative inhalers should be kept on campus. (These are normally brown in colour.)
- ☆ **RELIEF INHALERS:** These are normally blue in colour. Each student should have two relief inhalers on campus; one with them at all times and the other kept safely as a spare. Both inhalers must be clearly labelled with the student's name and dosage. The inhaler kept with the student should remain with them at all times including when participating in Physical Education or other activities, both on campus and on trips, etc. These will be checked for expiry dates and medication levels. Parents, guardians and carers will be notified two weeks before the expiry date, giving sufficient time to replace the inhaler. It is vitally important that inhaler usage is as prescribed by the student's doctor.

### Please note:

- ☆ The Trust should be notified immediately of any change in pattern of a student's use of their inhaler and they are not permitted to share their inhalers.

### AS THE PARENT/GUARDIAN/CARER:

- ☆ I have read and understood the above policy guidelines and agree to the procedure being followed.

- ☆ Parental home address and contact telephone number(s);
- ☆ Name of social worker, Social Work Team and Local Authority together with full contact details;

## SECTION 9

## GUIDANCE PARENTAL RESPONSIBILITY (THE CHILDREN ACT 1989)

One of the aims of this Act is to help children to be brought up within their family by their parents. To do this, the Act makes it clear who has parental responsibility for children, depending on home circumstances. The Trust needs to be sure that it has information regarding each adult with parental responsibility for the child, so that regular contact can be made concerning the child's progress. Where both parents are married and living together with their child, the position is of course straightforward. Parental responsibility in other family situations may be as follows:

- ☆ In cases where a family breaks up, the Act says that both parents (if they were married when their child was born) are still responsible for their child – the parent who looks after them and the parent who no longer does so. Both parents have an equal right to information from their child's college about their progress, and both have the right to vote in parental ballots – to elect parent governors, for example;
- ☆ If a child is being looked after by one or two carers who are not their parents or legal guardians, the child's natural mother and father may still have parental responsibility unless a court has taken this away;
- ☆ A single mother has parental responsibility automatically, but the unmarried father does not, unless he obtains it with the mother's agreement or by a court order.

### AS THE PARENT/GUARDIAN/CARER:

☆ I have read and understood the above guidelines and consent to the information being forwarded.

Guardian or Carer) :

## SECTION 10

## FAIR PROCESSING NOTICE - GENERAL DATA PROTECTION REGULATION (GDPR)

The Local Authority and Department for Education share information about students in order to carry out specific functions such as the assessment of special educational needs. The information may be used to derive statistics to inform decisions on funding for example, and to assess performance. For students approaching or over age 13, the Trust may pass on information to career related organisations. This information includes the name and address of the student and parent/guardian/carer, and any further information relevant to the role of the careers service in order to support young people; helping to achieve potential and realise benefits from education and employment. However parents/guardians/carers or the student, if aged 16 or over, may request that no information other than name and address (for student/parent/guardian/carer) be forwarded to career organisations

### AS THE PARENT/GUARDIAN/CARER:

☆ I have read and understood the above guidelines and consent to the information being forwarded.

## SECTION 11

## BIOMETRIC CASHLESS PAYMENT SYSTEM

The Trust has incorporated fingerprint biometrics as part of our cashless payment system, providing parents, guardians and carers with a convenient, secure and verifiable way of making online payments for school meals. The biometric fingerprinting will take place at the College, creating a digital signature from the student's finger image and linking this to their iPayimpact account. Once registration on iPayimpact is complete and the account has been topped up with sufficient funds, students will then be able to make secure payments by simply placing their finger on the reader - with recognition done through our biometric technology. The software will then match their finger image with the unique digital signature held in the database. This system uses an image of the finger to create a mathematical algorithm before discarding the image; the image cannot be used by any other source or agency for identification purposes. The software will then automatically deduct the value of the items from the student's account.

### AS THE PARENT/GUARDIAN/CARER:
