

What are the aims and intentions of this curriculum?

The aim of our Key Stage 4 Curriculum is to give learners the opportunity to explore real business issues and how businesses work. Learners will consider the practical application of business concepts. This year students will:

1. Know and understand the purpose and nature of businesses, business organisations, setting of business objectives and aims, stakeholders in businesses, business planning, location and expansion, organisational structures and human resources management, business terminology, the integrated nature of business activity and the impact of business on individuals and wider society.
2. Apply knowledge and understanding to contemporary business issues and to different types and sizes of businesses in local, national and global contexts develop as enterprising individuals with the ability to think commercially and creatively to demonstrate business acumen, and draw on evidence to make informed business decisions and solve business problems.
3. Develop as effective and independent students, and as critical and reflective thinkers with enquiring minds use an enquiring, critical approach to make informed judgements.
4. Investigate and analyse real business opportunities and issues to construct well-argued, well-evidenced, balanced and structured arguments, demonstrating their depth and breadth and understanding of business.
5. Develop and apply quantitative skills relevant to business, including using and interpreting data.
6. Develop and apply business literacy skills in terms of reading and interpreting case studies, news stories and other relevant texts; oracy in terms of ability to respond in class to questions and participation in discussions; writing well-constructed answers, using business terminology and context where appropriate.
