

Computing Club

During the first Computing Club session, students investigated a technological trend called Robotic Process Automation (RPA) where students found out how repetitive jobs within business can be automated by using software. In addition to RPA, students also learnt how to program a micro:bit, which is an open-source hardware ARM-based (Advanced - Reduced Instruction Set Computer - Machines) embedded system with many input and output features used in computer education. Students thoroughly enjoyed their first session and are looking forward to next week's!

Appropriate Footwear

Students wearing appropriate footwear in college is essential, not only to comply with our published expectations in terms of uniform, but also to avoid inappropriate footwear such as boots and open toe sandals in college. Obviously, if the weather is inclement, it is sensible for students to wear boots to and from college. However, they must change into black shoes on arrival. The Rosedale Hewens Academy Trust cannot accept any liability in circumstances where issues emerge due to inappropriate footwear. Your support in this matter is appreciated.
