

French and Belgium Trip

The French and Belgium trip started with a fabulous workshop with Bruno, a master baker who owns the oldest "boulangerie" in the whole of Northern France. The traditional bread is made by hand and cooked in a wood oven. Students then headed off to the beautiful Cathedral in St Omer and the picturesque village of Cassel before checking in at Le Chateau. The weather was equally as good.

A more sombre mood on day two as we paid our respects to the fallen. Starting with an educational visit to the Flanders Fields Museum, topping up energy levels with a visit to the Leonidas chocolate shop, before heading to Tynecot Cemetery. Here, students laid a wreath on behalf of De Salis Studio College and everyone in The Rosedale Hewens Academy Trust. All students read a war poem to add to the occasion, supporting the Poetry and Conflict element of the English curriculum. Afterwards, students went back to the Chateau to sample snails and enjoy an evening of archery and games.

The last day of the trip did not disappoint our students. The staff at the Chateau created a certificate in recognition of the respect and excellent behaviour shown by students throughout their stay. Students headed off to Bruges which was explored by boat. No visit to Belgium would be complete without chocolate workshop where we learnt all about the history of chocolate and processes involved in making it. Students got to make and design their own bars of chocolate which we have no doubt have been consumed by now! Whilst in Bruges, the official practice for the Tour de France cycling race went past. The students shouted words of encouragement and support. It was so exciting to see first hand everything involved in a race of this importance. Students arrived back to college tired but enriched by this amazing trip.
