

Fun in French!

Whilst learning how to introduce yourself in French is important, it's often that learning how to ask for directions is neglected! That's why, students in Year 10 enjoyed an interactive session on learning how to ask for and give directions in French, which was conducted via pair-work activities to navigate their way around a town. Each student took turns in guiding one another through a series of directions before making it to their destination. This is crucial vocabulary for any visitor in France! Great fun was had by all and many memories of prior learning were evoked!

Home/College Communication

We believe that strong communication links between the College and parents, guardians and carers are vital in supporting students in achieving their personal best. Research has shown that students' academic progress and achievements are significantly influenced by the extent of parental involvement and interest in their education. The College communicates with parents, guardians and carers in a variety of different ways:

- Verbal: in meetings, by telephone
- Events: information evenings, open evening, academic tutoring
- Written: letters, notes in planners, newsletters
- Electronic: notices posted on the College website, text messages and email

If you have any suggestions for further improving communications, please let us know as we are always receptive to new ideas and initiatives.
